

Tell us what you think about green spaces within Norton-juxta-Kempsey Parish

We have an opportunity to apply for grant funding from Wychavon DC to improve our local community and environment using the Community Legacy Grant (CLG).

This consultation is to give you the opportunity to share your views regarding the Parish Council's vision to improve green spaces within our Parish and use of funding, including CLG funding, to achieve this.

Please let us have your views by 5th May 2024 by answering the questions overleaf.

You will hopefully have seen the Green Spaces Vision from Norton-juxta-Kempsey Parish Council Green Spaces Working Group published Autumn 2023. In summary, the Vision is to:

- Protect, enhance and add perpetual green spaces both within and adjacent to Norton-juxta-Kempsey Parish.
- Encourage and nurture biodiversity within those green spaces.
- Inform residents and visitors alike on all aspects of the green spaces particularly as to the flora and fauna found there.
- Guide people with walking trails and routes to visit the green spaces safely and without adversely impacting the resident flora and fauna. Such routes will form part of the active travel network essential to promoting healthy living.

Fulfilling the vision requires funding and we have an opportunity to apply for a substantial Community Legacy Grant (CLG) from Wychavon District Council (WDC). Community Legacy Grants are a way that WDC shares funding with parishes to develop assets and services of long-term benefit to the local community; the Norton Connector minibus and the major improvements to the Parish Hall in the last few years were both CLG funded.
